

INTRODUCTION

Cixi City Zhongyi Appliance Industry Co.,Ltd established in 1995, which now located at Xianjiang Industry Zone, Changhe town, Cixi city, Ningbo, China.

In 2000, we began to manufacture fixing system for construction industry with brand Bestfix, specifically classified by Pipe Clamps, Channels and brackets. We perfume smooth in-house flow from Forming, Bending, Welding, Threading and Galvanizing for assembling and Packing procedure.

The factory also equipped with quality control lab, molding depth and run in ERP system. Our products can be widely used in the building construction and decoration, cable & pipe system for telecommunication and channels construction etc..

Till 2015, we have the TUV Certificate, SGS Certificate, ISO9001:2008 and other local & international certificates.

The factory has a 30,000sqm area, and presently having 200 employees, including 15 engineers. In 2014, we produced about 75 million pcs clamps. We export the 90% of our goods. We carry out 40% of our export to Western Europe and 60% to Middle East Countries, Russia and Turkey. Our turnover in 2014 was about \$13 million.

We are the OEM supplier for many transnational corporations in the domestic market. such as "Hilti", "Wurth", "Walraven", Inka" etc. Most of these brands, pipe clamp projects are provided by us.

Now we launch our new brand in middle east with the name of "HIFIX".

Hifix, combining the advantage of competitive price with high quality goods, in-time delivery and wide products range.

TECHNICAL SPECIFICATION:

Materials

• Clamp Body: Cold-Rolled Carbon Steel Grade Dc01 according to EN 10 130: 2006

• Clamp Rubber Features:

Materials: EPDM

- Noise Reduction up to 18 DB(A) as per DIN 4109

- Fire Behavior: DIN 4102 Class B

- Hardness: 40 Shore

- Temperature Range: -40° C to 110° C

• Clamp Plating: Electro galvanized zinc-plating as per the standard ASTM-B633

• Clamp Nut: Welded on projection welding machine

- Nut Load:

Nut Type	NUT Size	Size Range	PULL-OFF TEST (KN)	PULL-OFF TEST(KG)
Hex Nut	M8	3/8" to 2"	9	55
Hex Nut	M10	2 1/4" to 8"	14	70
Combi Nut	M8+M10	3/8" to 8"	9	55
Combi Nut	M8+M10	2 1/4" to 8"	14	70

^{*} Note: Clamp with Hex Nut will be manufactured as per order

- Nut Welding Strength:

Clamp Thickness (mm)	Size Range	Welding Strength (NM)
1.0 mm	3/8" to 1"	55
1.2 mm	1 1/4" to 2"	65
1.5 mm	2 1/4" to 4"	75
2.0 mm	4 1/2" to 8"	

• Clamp Screws: M5 and M6 philip combi head with washer

Standards:

• Clamps are manufactured according to the following standard:

- EN 10130 & BS 1449 : Cold rolled carbon steel standard

- BS 3974 part 1, 2, 3 & 4 : Clamps specification (material used, temperature used

diminutions, load & application)

- DIN 4109 : Rubber noise reduction standard

- DIN 4102 Class B : Rubber fire behavior standard

- ASTM-B633 : Electro galvanized zink plating standard

Standard Pipe Clamp

With Rubber Profile

Application:

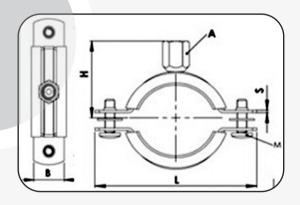

- Used for mounting of pipes to the walls (vertical/horizontal) ceilings and floors
- PPR, PVC, Copper, GI, Stainless Steel Pipes
- Water, Drain, Chiller Plants.

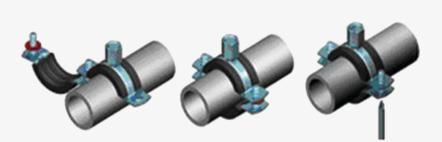

Technical Details & Features:

- Hanging type is M8 / M10 combi nut.
- EPDM lining for:
 - Noise reduction level up to 18 dB according to DIN4109
 - Vibration reduction
 - Partial compensation of thermal expansion
- Easy and safe assembly through Philips combi side screws
- Side screws are protected against loss during assembly with the help of plastic washers.
- Electro galvanized against corrosion protection (Platting thickness 10-12 micron)

Standard Pipe Clamp

Without Rubber Profile

Application:

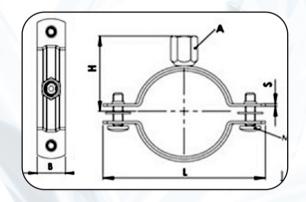

- Used for mounting of pipes to the walls (vertical / horizontal) ceilings and floors
- PPR, PVC, Copper, GI, Stainless Steel Pipes
- Water, Drain, Chiller Plants.

Technical Details & Features:

- Hanging type is M8 / M10 combi nut
- Easy and safe assembly through Philips combi side screws.
- Side screws are protected against loss during assemble with the help of plastic washers.
- Electro galvanized for corrosion resistance (Plating thickness 10-12 micron).

Sprinkler Pipe Clamp

Application:

- Used for freely hanging of horizontal pipelines
- Used for sprinkler system installations
- Used for fire extinguishing systems

Technical Details & Features:

- Height adjustment through threaded rods
- Electro galvanized against corrosion protection (Plating thickness 8 10 micron)

U - Bolt:

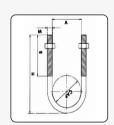

Application:

- Fordirect fixing of pipe clamps to channel systems
- With necessary precautions they can be used either as a fixed or a sliding support

Technical Details & Features:

• Electro galvanized against corrosion protection (Plating thickness 5-8 micron)

Nail Clamp:

Application:

• Used for mounting of pipes to the walls (vertical / horizontal) ceilings and floors

Technical Details & Features:

- Plastic plug should be used for fixing
- Easy and safe assembly through Philips conbi side screws
- Sides crewsare protected against loss during assembly with the help of plastic washers.
- Electro galvanized against corrosion protection (Plating thickness 10-10 micron).
